

POWER SYSTEMS & CONTROLS

THE POWER IS ON!

FITTER

JOB DESCRIPTION:

Richmond based Manufacturer looking for hard-working and skilled Fitters to fabricate, fit, and assemble the structural components of various mechanical systems. To be successful as a Fitter, you should be detail oriented, focused, and adept at interpreting blueprints. Ultimately, an exceptional Fitter should be able to safely use hand and power tools, as well as demonstrate excellent analytical, problem-solving, and organizational skills.

REQUIREMENTS:

- Must have High School diploma or GED
- Candidate must have 5 years of relevant experience
- The ability to use hand and power tools
- The ability to interpret blueprints for mechanical systems
- Excellent communication, time management, and organizational skills
- Exceptional welding and mechanical skills
- Should be able to collaborate with other Fitters on large-scale projects

RESPONSIBILITIES:

- Analyzing the blueprints for mechanical systems to determine the specifications of the components to be constructed
- Constructing from raw materials
- Using welding equipment to fuse assembly components
- Inspecting fabricated components to ensure they are sized correctly
- Utilizing shears, power saws, cutting torches, and chipper knives to cut materials as needed
- Replacing damaged or defective structural components as needed
- Set up and operate fabricating machines, such as brakes, shears, and drill presses to cut, form, drill, and otherwise assemble metal components
- Lay out parts for assembly by aligning parts or pieces to ensure proper assembly
- Tack-weld fitted parts together

BENEFITS OF WORKING @ PS&C:

PS&C offers the opportunity to carve out your own professional destiny! We facilitate enhancement of one's skill set, while providing the structure to strengthen your talents and diversity within yourself, as well as our product lines.
