

TEST ENGINEER/TECHNICIAN

JOB DESCRIPTION:

Richmond based manufacturer looking for Test Engineers/Technicians immediately for long term employment. A diverse technical understanding, and the hands on skills, that will allow them to recognize system application and validate the performance requirement of our product lines. The candidate must be self-motivated, company oriented and able to apply common technology to a variety of applications. Eager to absorb more knowledge with every new experience.

REQUIREMENTS:

- Must be a U.S. citizen
- Detail oriented in communication and documentation
- Able to read all manner of electrical schematics
- Knowledgeable in test metering and monitoring equipment to include (not limited to) oscilloscopes, power analyzers and meters for electrical and mechanical measurements
- Candidate must have 10 years of electrical, electronic, and control systems experience
- Experienced in 3 phase power

RESPONSIBILITIES:

The Test Department falls under the Field Service Division of PS&C. An experienced Test Engineer/ Technician will work independently at the PS&C Richmond,VA facility, supported by all of the Field Service Technicians not deployed to the field. The Test Engineer/Technicians responsibilities will include:

- Review and implement test procedures for every product and product feature
- Connect power, communication and control test cables as needed
- Set up, operate and analyze the data collected from various test analyzers and meters
- Maintain test department equipment at 100% capability
- Maintaining delivery targets by adjusting personal work schedules as needed

VALUES ATTRIBUTED, EXPERIENCE & SKILLS:

- USG Clearance (S or TS)
- Engineering/Electronics degree
- AutoCAD experience
- Licensed Electrician
- PLC programming
- Electronics and circuit board troubleshooting
- Motor and electric generator experience
- Variable Frequency Drives (VFD)
- Programmable Logic Controllers (PLC)
- Relay logic
- Reading and troubleshooting from electrical schematics
- RF shielding test and repair
